Back-end developer and team lead with expertise in Django, REST APIs, and Agile methodologies. Skilled in managing complex projects and delivering high-quality solutions. Passionate about technology and continuous learning.

EXPERIENCE

TrAir Teknoloji Yatırımları A.Ş, – *Team Lead* August 2022 - October 2024

- Led the software team by planning and organizing tasks, ensuring smooth project progression and efficient development processes.

- Developed and optimized a marketplace e-commerce platform using Django, implementing PostgreSQL for database management, lazy loading for performance, and caching with Memcached and Redis. Integrated AWS S3 for scalable image storage.

- Built robust APIs with Django Rest Framework (DRF) for third-party integrations, including payment gateways, invoicing, and SMS/cargo services via SOAP, with thorough testing on Postman.

- Managed CI/CD processes with Jenkins and Docker, handling load balancing and ensuring streamlined deployments

- Implemented scalable XML-based product import/export solutions using Celery and RabbitMQ, enhancing data processing capabilities.

- Contributed to multiple projects, enhancing skills in stress management, adaptability, and collaboration within cross-functional teams.

EBABİL DRONE TAKIMI – *Team Lead* June 2023 - March 2024

- Led the R&D team at EBABİL BİLİM VE TEKNOLOJİ DERNEĞİ as a volunteer, mentoring team members and sharing expertise in project development.

EBABİL BİLİM VE TEKNOLOJİ DERNEĞİ – *Vice Chairman of the Board* June 2023 - Present

- Actively volunteering in this organization, collaborating with aviation enthusiasts on project development and event participation.

Sigma Center Kalite ve Verimlilik Danışmanlığı – *Full Stack Web Developer* May 2021 - August 2022

- Developed front-end applications with Angular and TypeScript, and built backend APIs using Laravel.

- Improved deployment skills by using Docker on Ubuntu Server, streamlining project deployment and server management.

RekorNET – *Front End Web Developer* February 2020 - March 2021

- Developed front-end features using Laravel's Blade templating engine, Bootstrap, and JavaScript, improving project functionality and user interface.

EDUCATION

Anadolu University – *Bachelor's Degree in Management Information Systems* 2022 - Ongoing.

Balıkesir University – *Associate Degree in Computer Programming* 2018 - 2020.
